Re: BILL NO. 63-36 (COR) – An Act to Amend § 68101 of Chapter 68 and § 63801(b) Of Article 8, Chapter 63, Both of Title 5, Guam Code Annotated, Relative to Requiring Farmers to be Certified as Bona Fide Farmers to sell locally grown produce or aquaculture products and to suspend or revoke business licenses from companies found in violation; and Amending the definition of a Bona Fide Farmer

Buenas yan Hafa Adai Madame Speaker:

Our farmers serve a vital role in our island's economy, culture and history. As our island weathers the economic effects of the COVID-19 pandemic, and we explore the potential for the creation and fortification of diverse industry in Guam, it is imperative that we consider additional measures of support we can offer the members of our community who grow and supply our food. Bill No. 63-36, now known as *Public Law No. 36-24*, helps protect and promote farming in Guam. By creating a registry for bona fide farmers, we ensure that our farmers are connected to businesses and agencies that may wish to purchase produce from them. We protect our farmers from would-be agriculture thieves who would sell stolen produce and undercut legitimate producers. We create opportunities for our farmers to take advantage of available grants to help them grow their businesses, and keep them up to date with regulatory requirements. It is my hope that this law helps ensure the vitality and growth of our agriculture industry now and in the future.

Senseremente,

LOURDES A. LEON GUERRERO

Maga'hāgan Guåhan

AN ACT TO AMEND § 68101 OF CHAPTER 68 AND § 63801(b) OF ARTICLE 8, CHAPTER 63, BOTH OF TITLE 5, GUAM CODE ANNOTATED, RELATIVE TO REQUIRING FARMERS TO BE CERTIFIED AS BONA FIDE FARMERS TO SELL LOCALLY GROWN PRODUCE OR AQUACULTURE PRODUCTS AND TO SUSPEND OR REVOKE BUSINESS LICENSES FROM COMPANIES FOUND IN VIOLATION; AND AMENDING THE DEFINITION OF BONA FIDE FARMER.

1 **BE IT ENACTED BY THE PEOPLE OF GUAM:**

2 **Section 1. Legislative Findings and Intent.** *I Liheslaturan Guáhan* finds
3 that a robust registry of local farmers will give the Department of Agriculture the

1 best opportunity to provide these producers with the resources they need. By
2 mandating this registry for all farmers, we ensure the best chance of matching local
3 government agencies to the producers they need as mandated under Public Law 23-
4 18. This means the government would be taking the steps to be a driving force in
5 creating demand for local produce.

6 *I Liheslaturan Guåhan* further finds that this registry will be helpful in a
7 variety of ways beyond the government procurement of local products. This
8 additional oversight by the Department provides the Government of Guam with
9 another tool to prevent agricultural theft. By mandating a registry, it will create a
10 barrier to theft of agricultural products and the subsequent sale of the same. It will
11 also assist in preventing stolen goods from entering Guam's local agricultural
12 market.

13 Several Government of Guam agencies, such as Guam's Soil and Water
14 Conservation Districts and both the local and federal Departments of Agriculture
15 will be able to use this registry to provide government resources and services to those
16 providing food to our communities. Trainings, grant funding, and other programs
17 can be developed and disseminated with the help of a registry of local farmers.
18 Furthermore, Bona fide farmer certification ensures that all Guam farmers selling
19 agricultural products are trained and are bound to comply with pesticide regulations
20 to ensure that farmers have the tools to provide a quality product that is safe for
21 consumption by the people of Guam.

22 Lastly, registering all local agricultural and aquacultural producers with the
23 Department of Agriculture allows the Department to handle all necessary oversight
24 and regulation for both government and private business consumption of local
25 produce.

26 Therefore, it is the intent of *I Liheslaturan Guåhan* to mandate a registry of
27 local farmers and develop penalties for those businesses working with unregistered

1 farmers, leaving more room for opportunity and assistance for these agricultural
2 producers. With the increased registry, the Department can keep track of the growth
3 of this industry that is vital to the food security and the economy of our island
4 community.

5 **Section 2.** § 68101 of Chapter 68, Title 5, Guam Code Annotated, is hereby
6 *amended* to read:

7 **“§ 68101. Procurement of Local Produce from Local Farmers**
8 **and Fish from Local Fishermen.**

9 The Department of Agriculture shall, on a continuing basis, make every
10 effort to ensure that the crops of the farmers and the fish products of the
11 fishermen of Guam are first procured by agencies of the government, such as
12 Department of Education, Department of Youth Affairs, Department of
13 Corrections, the Guam Memorial Hospital, and the Government House, unless
14 the farmer or fisherman has made previous arrangements for sale to other
15 users.

16 The Department shall facilitate the negotiation of prices, amounts and
17 availability of local produce and fish with the farmers and fishermen for the
18 sale to other Government Agencies and shall assist in securing payment from
19 fiscal officers of the respective Agencies. The Department shall provide the
20 necessary advice and assistance to ensure that the crops and fishes are
21 delivered to the particular agency in the best possible condition. All
22 participating Government of Guam Agencies are mandated to give preference
23 to local farmers and fishermen prior to purchasing from off island and other
24 markets or fishing industries owned by foreign countries.

25 The Director shall adopt operational procedures relative to establishing
26 a list of qualified local farmers and fishermen and to assist those qualified
27 local farmers and fishermen in establishment of pricing, variety, quantity,

1 quality, availability, and other related logistics to facilitate acquisition of local
2 produce and fish by other Government Agencies consistent with the needs of
3 those agencies.

4 Farmers intending to sell locally grown produce or aquaculture
5 products to government agencies, private companies, or private citizens must
6 be registered with the Department of Agriculture as a certified bona fide
7 farmer. Farmers selling produce or products to private consumers must have
8 the bona fide farmer certificate displayed in a conspicuous location.
9 Government agencies and private companies shall verify the bona fide farmer
10 certification of the seller prior to the purchase. Failure of farmers to comply
11 with the provisions of this Section will result in the suspension or delayed
12 certification by the Department of Agriculture.

13 (a) Any eating, drinking, or food establishment as defined in
14 Chapters 23 and 24 of Title 10, Guam Code Annotated, found
15 purchasing local produce or aquacultural products from a farmer who
16 is not certified by the Department of Agriculture as a bona fide farmer
17 will be found in violation of this Chapter and shall be subject to
18 suspension or revocation of its business license pursuant to the Business
19 License Law.

20 (b) For the purposes of this Section, "bona fide farmer" shall
21 be as defined in 5 GCA § 63801(b).

22 **Section 3.** § 63801(b) of Article 8, Chapter 63, Title 5, Guam Code
23 Annotated, is hereby *amended* to read:

24 "(b) *Bona fide farmer* means a person who is registered with the
25 Department of Agriculture who grows for commercial purposes fruits,
26 vegetables, ornamental plants, livestock, aquacultural products, agricultural
27 products, or similar products, and is either (1) a U.S. citizen; (2) a permanent

1 resident alien; (3) a non-immigrant alien admitted into Guam under the
2 Compacts of Free Association between the United States and the Federated
3 States of Micronesia, the Republic of the Marshall Islands, and the Republic
4 of Palau; (4) a resident of Guam for the immediately preceding five (5) years;
5 or (5) a corporation or partnership licensed to do business in Guam. There
6 shall be no requirement on the minimum size of a farm, acreage, or number
7 of plants needed in order to register with the Department of Agriculture as a
8 bona fide farmer. The Department of Agriculture shall be required to
9 randomly select at least ten percent (10%) of bona fide farmers as defined in
10 this Section per quarter for inspection to ensure that bona fide farmers are in
11 compliance with all applicable laws, rules and regulations.”

12 **Section 4. Effective Date.** This Act shall be effective upon enactment.

13 **Section 5. Severability.** If any provision of this Act or its application to any
14 person or circumstance is found to be invalid or contrary to law, such invalidity shall
15 not affect other provisions or applications of this Act that can be given effect without
16 the invalid provision or application, and to this end the provisions of this Act are
17 severable.
